Comments:

Due to data transfer error in our Access Database, complete traffic stop data was not submitted. Traffic stops involving white drivers were not included in the total data submission. The actual number of traffic stops for 2014 was 2,501, therefore this is not an accurate representation of all traffic stops for 2014.

Comments:

The Illinois State Police (ISP) remains committed to make Illinois roadways safe for all drivers. Through traffic stops and consent searches, Illinois State Troopers are taking illegal weapons and other illegal substances off the roads and highways of Illinois, making travel safer for everyone.

The ISP continues to build on the progress we have made since the implementation of the Traffic Stop Statistical Study in 2004. Over the past 10 years, the ISP's approach to data collection and review has evolved. While gaps between stops and searches and seizure of contraband from minority drivers and white drivers remain, these gaps continue to narrow.

As in years past, the ISP continues to evaluate the information collected and improve upon our use of the data. This year's training focus will be aimed at helping managers use the data so that they can educate and train officers to remain cognizant of their actions and ensure all drivers are treated equitably. The ISP continues its commitment to public safety and ensuring all drivers understand their rights. To that end, the ISP is implementing a plan to work with community groups in order to educate citizens regarding interactions with the police, citizen's rights, and the ISP complaint process.

Finally, "Understanding Perceptions of Biased-Based Policing" will continue to be mandatory training for all new officers and be refreshed annually during in-service training.

Comments:

As previously indicated, the City of LaSalle has had a large increase in minority drivers who have moved into the which is not reflected by the census. The City also has a large transient population which is also not taken into account. The study also does not reflect the large number of recidivism of the same traffic offenders.

Comments:

Normal, IL and Bloomington, IL are twin cities, separated only by common city streets with no physical or geographic barriers. The estimated minority driving population in Normal, IL (as determined by IDOT) is 14.55%, compared to 20.79% in Bloomington, IL. Many residents of Bloomington, IL work, shop, attend school and visit family and friends within the Town of Normal, traveling between the two jurisdictions multiple times every day. Based on shared community borders and resources, the minority driving population for Bloomington/Normal should reflect very similar numbers, therefore, it is our position that a minority driving population of 14.55% is comparatively low for the driving community as a whole in Bloomington/Normal and not reflective of the actual driving community.

Comments:

The department does not issue written warnings. This information is reflected in the "Outcome of Stop" area. The department only issues verbal warnings or citations. There was an error on two records where written warnings were recorded. This is incorrect and should be merged with the verbal warning count. These combined totals accurately reflect the department's verbal warning information. The report, aside from the specified record, accurately reflects the only two possible outcomes for a traffic stop.

Comments:

The University of Illinois at Springfield resident population is fluid and constantly changing. The various characteristics such as race, ethnicity, religion, and other factors change semester to semester. The student population for 2014 averaged 34% minorities as opposed to the 20.56% minorities utilized by the Traffic Stop Data Summary. This constant change makes it difficult to accurately calculate the base population for comparison and analysis.

Comments:

According to Illinois Department of Transportation, "Getting around Illinois" "Average Daily Traffic Counts," (<http://www.gettingaroundillinois.com/gai.htm?mt=aadt#>) there are over 20,000 vehicles that travel through and past the intersection of US Route 20 and Winnebago Road (Commonly known as "Winnebago Corners") on a daily basis. There are several retail establishments immediately south of this particular intersection, which is within the jurisdiction of Winnebago Police Department.
